

PETITION

We, the undersigned parents, students, former students, and supporters of South Macon School agree that something constructive should be done about the May 19, 2005 decision of the Macon County Board of Education. South Macon School has been a community school in the Roba, Alabama community for almost 80 years. We support the continuation of our community school and do not want it to be closed. We also support that the Macon County Board of Education should invest in South Macon School as it does and has done for other schools in our County. We are concerned that the Board's vote to close South Macon will negatively impact our community. Our School has been academically clear on a consistent basis for years as a result of the performance of South Macon School students, parents, teachers and administrators. We strongly urge the Macon County Board of Education and Superintendent to immediately take the necessary actions to rescind their decision to close South Macon School.

We are concerned that the Board's vote to close South Macon will negatively impact our community. Our School has been academically clear on a consistent basis for years as a result of the performance of South Macon School students, parents, teachers and administrators. We strongly urge the Macon County Board of Education and Superintendent to immediately take the necessary actions to rescind their decision to close South Macon School.

PETITION

We, the undersigned parents, students, former students, and supporters of South Macon School agree that something constructive should be done about the May 19, 2005 decision of the Macon County Board of Education. South Macon School has been a community school in the Roba, Alabama community for almost 80 years. We support the continuation of our community school and do not want it to be closed. We also support that the Macon County Board of Education should invest in South Macon School as it does and has done for other schools in our County. We are concerned that the Board's vote to close South Macon will negatively impact our community. Our School has been academically clear on a consistent basis for years as a result of the performance of South Macon School students, parents, teachers and administrators. We strongly urge the Macon County Board of Education and Superintendent to immediately take the necessary actions to rescind their decision to close South Macon School.
